

HF

Horizontal Fiber Optic Splice Closure

Aerial or Buried Fiber Distribution

The Yamasaki HF Series Horizontal Fiber Optic Splice Closures (FOSCs) are made of super tough polycarbonate, they are UV resistant, waterproof and are suitable for use either suspended along wires or placed underground in pits below street level. The HF Series FOSCs are ideal for use in FTTH PON applications. They are quick and easy to install with everything you need ready for use, straight out of the box.

There are many sizes of HF Series Horizontal FOSCs available, from 12 cores all the way up to 144 cores.
