

V120R

Video Fiber Converter

1 Video 1 Return Data 20km

Reliable, Stable and Easy to install.

Yamasaki V120R Video Fiber Converters are sold as a pair, they support high quality transmission of return data and encoded video over a Singlemode optical fiber, these are often deployed to enable remote controlled cameras in security situations, They have a range of up to 20km, quick and easy to set-up, and are available as either rack mountable or standalone.

V120R Video Fiber Converters have no EMI, no Cross talk, They are ready to go, straight out of the box, excellent operating temperature range (-25~+75° C) and are ideal for use in remote areas.

These modules can be removed from the housing to be rack mounted.

Recommended for use with the R182 Rack Mount.
