

W7S

7 Port Switch 10/100Mbps

6 x RJ45, 1 x Singlemode SC

Reliable, Compatible and Cost Effective.

Yamasaki W7S Series switches are simple 7 port switches with one included fiber port, they are designed for deployment in star topologies, they do not require management and are easy to setup and install.

Each switch has six 10/100BaseTX Ports and one 100BaseFX Singlemode port. The easy to read LED display shows power status, link status, transmissions rates and data activity.

The strong alloy housing provides excellent heat dissipation, Yamasaki guarantees the W7S with a Lifetime Warranty.
